Volume 8 Monthly Progress Report
information
I. Intelligence material processed.

- a. A total of 1360 individuals were processed during the month.
- b. A total of 2133 individual names have been incorporated into the Flexoline File.
- c. One complete category file was collected from the State Department. This was
- d. A total of thirty-five requests were processed during the month.

II. Procedure established and in operation

- a. All procedures relating to the processing of biographic material have been established and are in operation.

III. Contacts

- a. The usual liaison contacts have been made between the War Department, the State Department and this Register.

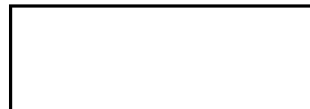

IV. Special projects

- a. The special project of collecting and processing all scientific personnel within the IAB agencies is in process. This is being done at the request of the Scientific Branch of CIG. It is estimated that it will take the entire personnel of this Register twenty days to accomplish this job.

V. Remarks

- a. This Register is prepared to process any biographic material which may be received providing the volume does not exceed the production capacity of our present personnel.
- b. This office requests that a meeting be called of all interested persons in order that a full explanation and demonstration may be given of our capabilities. This should create an understanding of the purpose, scope and ability of our Register so that it may be used to the best advantage of those concerned.
